pastures are in good shape.

year in school (thereby completing a
three year course in two), I would like
to obtain a \$750.00 loan at seven per
cent for five years, secured by first
mortgage on eighty acres of good farm
land located nine miles south of Hondo.
Title to this land is clear, without en-
cumbrance. School opens Sept. 19th,
so must have money before Sept. 5th.

R. H. Hudspeth and little daughter,
Roberta, returned Sunday from Col-

tended the meeting of the Farmers'
Congress. While he admits conditions
are not ideal in that section of the
state he says they are somewhat bet-
ter than here, particularly in the mat-

He says, however, that the corn and
other feed crops were failures and
that people over there are in a quan-

Mr. and Mrs. W. C. Sankey went to
San Antonio yesterday to reside. Mr.
Sankey had been employed on this

Up to Thursday night there had
been 26 bales of cotton shipped from
this place—23 old and 3 new bales.
Up to the same time last year 150

The Draft.

The examination of the first of those cited to appear, 170 in all, began at the court house last Saturday, 56 being the number called before the board that day, 57 on Monday and 57 on Tuesday. That is, that number were summoned but owing to some eight or ten Mexicans that had been cited to appear going to Mexico instead, and a number of registrants of other nationalities having already joined the colors, the number was somewhat reduced. Out of the number appearing before the board sixty-seven were pronounced physically fit. As Medina county's quota under the first call is eighty-five another call will shortly be issued in an effort to secure the required number.

The large number of claims for exemptions of those appearing before the board, and the number of exemptions that will finally be granted, will have a bearing on the number that will be called in the next draft. The local board has not yet gone into the matter of exemptions, but will probably do so in a day or two. As there seems to be some conflict in the instructions as to who is entitled to exemption, Dr. Smith, a member of the local board, went to San Antonio Thursday to consult the appellate board. It will probably be some days yet before those who have just passed the examinations will know whether or not their claims for exemption will be granted.

Red Cross Notes.

The local Red Cross ladies have taken hold of the work with a will, and it is safe to say that Hondo's contribution to this meritorious cause will be fully up to expectations. The work has been systematized and the Red Cross quarters in the Frerichs' building present a scene of activity and enthusiasm.

The ladies meet regularly Monday, Wednesday and Friday of each week, the hours being from 9 o'clock in the morning until noon, and from 3 o'clock until 6 in the afternoon.

The business meeting will be held on the first Wednesday of each month at 3 o'clock, p. m.

In order to provide funds for the purchase of materials, committees will be sent out once a month to solicit voluntary contributions from the public. These committees will call upon members as well as non-members and only small contributions will be expected, as it is believed that by this means sufficient funds will be secured to carry out the work. These contributions are in no sense to be regarded as dues, but are solicited merely as free-will offerings on the part of the public.

Every lady in town, whether a member of the Red Cross or not, is invited to come to the Red Cross quarters on working days (Mondays, Wednesdays and Fridays), and assist in the work. Everybody is welcome who desires to contribute her mite to this great undertaking.

Notice.

To Whom this May Concern and The Public:—

On Friday night, August 3rd, 1917, I, the undersigned, made a visit to the Methodist church of New Fountain, Texas, and have to say that I enjoyed myself very much and appreciated the sermon that Rev. Gust. Muennink preached.

But next day there was brought to me one of the Quihi Gun Club Beer Checks by one of the brothers of the Methodist Church of New Fountain. It struck me with surprise to be insulted by being accused of such a deed of which I am not guilty—putting in this S. G. F. chip that was found in the collection that night.

Some one should have said that he heard it when I dropped it in the sack. I am here to hold up my right hand and swear that I am not guilty. Furthermore, we all know that people have been sentenced to death and life-time imprisonment for some deed that they were not guilty of. I do not believe that a person is much of a Christian if he wants to accuse a person when he is not sure of that person's guilt. If I had staid at home I would not have been accused of such an insulting deed.

I will say that I have been a member of the S. G. F. club for a number of years and I feel proud of the same, as I never have been insulted by any one and never been accused of something that I have not done.

Yours respectfully,
(adv) W. F. NEUMAN.

Writes Tanlac Co. That He is Now Gaining Five Pounds a Week—Only Weighed 130 Pounds—Now Weighs 155.

One of the strongest evidences of the rapidly growing popularity of Tanlac and of the wonderful results it is accomplishing is the large number of letters that are being received daily from well known men and women throughout the South.

Scarce a day passes that scores of letters are not received from grateful users of Tanlac and their statements are indeed remarkable. Among the number recently received is the following letter from William Breed, of Longview, Tex., which is published word for word, just as it was written.

Longview, Texas,
 January 13, 1917.

To Whom It May Concern:
 On November 25, I bought one bottle of Tanlac and commenced taking same according to directions. I weighed only one hundred and thirty pounds. In ten days I gained seven pounds and I am gaining at the rate of five pounds a week and weigh one hundred and fifty-five pounds at the present time. Tanlac beats any medicine that I have ever taken to build up a run down system. I would not take \$100 for what it has done for me. It is the best medicine I have ever taken for catarrh of the head and I have tried several kinds of catarrh medicines. My catarrh is nearly gone, also my stomach trouble of which I have been suffering for more than twenty years has almost disappeared, and I give all praise to your great medicine. When I commenced taking Tanlac I could not do a day's work but now I believe I can do as much work as any man.

Yours truly,
 WILLIAM BREED,

BACKACHE AND RHEUMATISM.

Dear Mr. Editor:

"For the benefit of others, I gladly give this statement regarding the merits of Dr. Pierce's Anuric Tablets. Am nearly 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that 'Anuric,' the new discovery of Dr. Pierce, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments."

Mrs. N. M. FLINT, Dawson, Texas.

Note—"Anuric" prolongs life because old people usually suffer from hardening and thickening of walls of arteries, due to the excess of uric acid in blood.

Dr. Pierce, Buffalo, N. Y., has been testing this medicine. The relief obtained by sufferers has been so satisfactory that he has placed "Anuric" with the druggists in town. If not obtainable, send 10 cents to Dr. Pierce for large trial package, or 50 cents for full treatment.

Small Grain.

By T. N. LEE, COUNTY AGENT.

In planning for next year's cropping system, small grains should receive a great deal of consideration. Of course the present drouth is discouraging. It is one of those unpreventable things that the farmer has to contend with. But the farmer should have his plans laid and be prepared so if rain does come that he will be in a position to make the most of it in the shortest time.

There are two main reasons why there should be a large acreage devoted to small grains (especially oats) this year. One is on account of the shortage of labor. It doesn't take so much labor to grow a grain crop as it does other crops. If the present shortage of labor continues, which it is most likely to do, and a good crop is made next year, the situation will be serious.

Another reason why there should be a large acreage planted to small grains this year is the shortage of feed of all kinds. A grain crop will not only produce a good amount of feed but will also furnish grazing during the winter months. And some grazing at that time may be worth a whole lot to tide some poor cow through the winter.

A great loss comes to the farmer each year on account of the smuts. In 1911 a lot of investigation work was carried on by the U. S. Department of Agriculture which show that the annual loss as a result of the smuts in small grains reached a sum of \$35,981,982 in 1911. The smut of the small grain is preventable. There are several methods. The most general used being known as the Formalin Treatment. It consists of the following:

Get one pound of Formalin of 40 per cent strength from your druggist. Mix this with water at the rate of one pound (or pint) to 40 gallons of water. There are numerous methods of getting the solution on the seed. A good way is to pile the seed up in a heap on a clean floor and sprinkle the solution on with a sprinkler. Mix the seed as you would concrete so as to get all the grains wet. The result depends to a great extent on the person doing the work. After the seed have been wet, take an old wagon sheet or sack, dip in the solution and spread over the pile of seed. Allow the covering to remain two hours or over night. Dry the seed sufficiently to run through a seeder. Be careful not to reinfest the seed by putting them in sacks containing smut or planting in a smutty drill. Use a little of the Formalin solution to disinfect the seeder and sacks.

Seed oats are going to be scarce. Therefore, see your local seedman and others that may have seed for sale and let them know your wants. It is very doubtful if the price will get lower while there is a possibility that they will be much higher. By ordering early it is possible to get better seed. Do not put off getting the seed until planting time and then have to do without because the seedman can not supply your wants. But attend to that part as soon as possible. If any other information is desired see your County Agent.

Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

Louis Vollmer Dead.

Louis Vollmer, 45 years old, died at 11:30 Sunday night at his home, 906 Ruiz Street. He was a native of Texas and had resided in San Antonio for the last thirty years. Surviving him are his widow, a son, John; three daughters, Misses Helen, Agnes and Zelma; his mother, Mrs. Mary Vollmer, of Sabin; three brothers, William J., Fred J., of San Antonio, and Val Vollmer, of Sabin; and two sisters, Mrs. Ida Koch and Mrs. Benna Kempf of Hondo. The funeral will be held at 9 o'clock this morning from the Sacred Heart Church. Interment will be made in St. Joseph's Cemetery.—Tuesday's San Antonio Express.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. 'In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since.' This salve is for sale by all dealers."

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

LaCoste Ledger Laconics.

Mr. Wm. Jungmann threshed his crop of cane seed last Tuesday from 1/2 of an acre of rich LaCoste soil. The crop amounted to 33 bushels and 19 pounds or at the rate of forty-four and one-half bushels per acre. The seed were all sold at 7 cents per pound, netting Mr. Jungmann \$116.83 for his 1/2 acre, or at the rate of \$194.25 per acre. Besides the crop of seed Mr. Jungmann will get several hundred gallons of molasses which neighborhood farmers are making for him on the half plan. The cane has already sprouted for the second crop which may be again as much per acre. This is a fair sample of what can be done on the black lands around LaCoste with irrigation.

Mr. and Mrs. Henry Biediger and family moved from Idelwild into our town the beginning of this month, and Mrs. Biediger and daughters have opened the hotel again which has been without a Mistress ever since Mr. and Mrs. Whitman left us.

August Merian was here on a few days visit to relatives.

August Weber brought in eleven bushels of corn which he sold for \$2.15 per bushel Saturday.

Mr. and Mrs. George Hawkes and baby of Weimer were visiting W. H. Hawkes and family Sunday.

Mr. and Mrs. Aug. Fillemann and family and Mr. Brieden of San Antonio were the guests of Ed Schmidt and family Sunday.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin. Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.
